Sample Output — Reddit Backlog Report

> **This is a sample, generated from synthetic test data — not real Reddit content.**
>
> It exists to show the output format of this tool before running it on live data. Every post and comment below comes from `tests/fixtures/sample_raw.json`, a hand-written fixture used by the offline test suite. No real Reddit post, comment, or username appears in this file.
>
> It was produced with the rule-based fallback (no LLM configured), so the grouping is keyword-level rather than semantic. With an LLM the items come back as named features with clustered pain points instead of "X Improvement".
>
> What it does demonstrate: the report structure, the priority split, the demand score calculation, and the fact that no usernames are displayed anywhere.
>
> The report body is written in Chinese because the tool's only user is Chinese-speaking; the structure, the scoring model and the data fields are language-independent. The English section headings in order are: Executive Summary / Priority Matrix / Feature Backlog / Top-10 Deep Dive / User Voice Wall / Pain Point Distribution / Method & Limitations.

Reddit 赛道需求与愿望清单：r/SaaS、r/Notion、r/productivity、r/SideProject、r/selfhosted、r/iosapps

> 生成时间：2026-11-09 13:13 ｜ 样本：15 篇帖子 / 31 条高赞评论 ｜ 时间范围：近 365 天 ｜ 方法：规则关键词归类（未启用大模型，结果为降级版本） ｜ 模型：heuristic-rules

一、执行摘要

- **最值得切入的机会**：Integration Improvement —— 第三方集成类抱怨集中出现，典型表述：I need a real two way sync between my calendar and my task manager without…
- **样本规模**：15 篇帖子，来自 r/SaaS, r/Notion, r/productivity, r/SideProject, r/selfhosted, r/iosapps，归纳为 10 条功能愿望。
- **痛点分布**：第三方集成（1 条）、数据导入 / 导出（1 条）、定价与计费（1 条）。
- **付费/迁移信号**：5 条愿望带有明确付费意愿或换工具倾向。
- **次优机会**：Data Import Export Improvement（8.0/10）；Pricing Billing Improvement（6.6/10）
- **提示**：当前为规则模式生成，仅作结构参考，建议配置大模型后重跑以获得语义级聚类。

最值得先验证的三个方向

1. **Integration Improvement**（8.1/10）— 第三方集成类抱怨集中出现，典型表述：I need a real two way sync between my calendar and my task manager without…，涉及 3 篇帖子。
2. **Data Import Export Improvement**（8.0/10）— 数据导入 / 导出类抱怨集中出现，典型表述：I wish there was a bulk CSV import that just understood our schema.，涉及 3 篇帖子。

3. **Pricing Billing Improvement**（6.6/10）— 定价与计费类抱怨集中出现，典型表述：Per seat pricing is a deal breaker for small businesses like ours.，涉及 2 篇帖子。

二、优先级矩阵

优先级	定义	条目数	代表功能	建议动作
P0	需求强度 ≥ 8，MVP 必须覆盖	2	Integration Improvement、Data Import Export Improvement	立刻做
P1	强度 6.5-8，有明确场景与复现	2	Pricing Billing Improvement、Reporting Analytics Improvement	下一个迭代
P2	强度 4.5-6.5，信号分散	6	Search Organization Improvement、Onboarding Support Improvement、Automation Ai Improvement	持续观察
P3	强度 < 4.5，缺乏支撑证据	0	—	暂不投入

共归纳 **10** 条功能愿望，其中 **5** 条带有明确付费意愿或迁移倾向。强度 = 语义强度 × 0.65 + 证据强度（赞数 / 评论量 / 关键词命中）× 0.35，是**相对排序指标**，不等于市场规模。

三、功能愿望清单（按呼声排序）

#	功能愿望	优先级	强度	类别	证据帖数	核心痛点
1	**Integration Improvement**	P0	8.1	第三方集成	3	第三方集成类抱怨集中出现，典型表述：I need a real two way sync between my...
2	**Data Import Export Improvement**	P0	8.0	数据导入 / 导出	3	数据导入 / 导出类抱怨集中出现，典型表述：I wish there was a bulk CSV import...
3	**Pricing Billing Improvement**	P1	6.6	定价与计费	2	定价与计费类抱怨集中出现，典型表述：Per seat pricing is a deal breaker for...
4	**Reporting Analytics Improvement**	P1	6.5	报表与分析	2	报表与分析类抱怨集中出现，典型表述：I need something that interrupts me at...
5	**Search Organization Improvement**	P2	6.4	搜索与信息组织	2	搜索与信息组织类抱怨集中出现，典型表述：I wish there was granular sharing per...
6	**Onboarding Support Improvement**	P2	6.4	上手引导与客服	2	上手引导与客服类抱怨集中出现，典型表述：The manual workaround is faster than...
7	**Automation Ai Improvement**	P2	4.9	自动化 / AI 能力	1	自动化 / AI 能力类抱怨集中出现，典型表述：I wish there was an AI that breaks...
8	**Collaboration Improvement**	P2	4.8	协作与权限	1	协作与权限类抱怨集中出现，典型表述：I wish there was a flat rate for small...
9	**Mobile Improvement**	P2	4.7	移动端体验	1	移动端体验类抱怨集中出现，典型表述：The mobile app is a deal breaker, I...
10	**Reliability Security Improvement**	P2	4.7	可靠性与安全	1	可靠性与安全类抱怨集中出现，典型表述：I wish there was at least a status page...

四、Top 10 需求深挖

1. Integration Improvement · 8.1/10 · P0

- **类别**：第三方集成　**用户意图**：准备换工具　**情绪**：挫败
- **痛点**：第三方集成类抱怨集中出现，典型表述：I need a real two way sync between my calendar and my task manager without...
- **证据**：3 篇帖子（r/productivity、r/selfhosted、r/webdev）
- **用户原话**：

> "I need a real two way sync between my calendar and my task manager without paying for a Zapier plan on top of two subscriptions." — r/productivity · 帖子 455 赞 "Looking for a self hosted alternative to Notion with a real API" — r/selfhosted · 帖子 377 赞

2. Data Import Export Improvement · 8.0/10 · P0

- **类别**：数据导入 / 导出　**用户意图**：愿意付费　**情绪**：挫败
- **痛点**：数据导入 / 导出类抱怨集中出现，典型表述：I wish there was a bulk CSV import that just understood our schema.
- **证据**：3 篇帖子（r/SaaS、r/freelance）
- **用户原话**：

> "I wish there was a bulk CSV import that just understood our schema." — r/SaaS · 帖子 842 赞 "Invoicing tools are so annoying that I went back to Excel" — r/freelance · 帖子 341 赞

3. Pricing Billing Improvement · 6.6/10 · P1

- **类别**：定价与计费　**用户意图**：准备换工具　**情绪**：挫败
- **痛点**：定价与计费类抱怨集中出现，典型表述：Per seat pricing is a deal breaker for small businesses like ours.
- **证据**：2 篇帖子（r/smallbusiness、r/SideProject）
- **用户原话**：

> "Per seat pricing is a deal breaker for small businesses like ours." — r/smallbusiness · 帖子 512 赞 "Built an alternative to a popular note app because the pricing got insane" — r/SideProject · 帖子 389 赞

4. Reporting Analytics Improvement · 6.5/10 · P1

- **类别**：报表与分析　**用户意图**：明确要功能　**情绪**：挫败
- **痛点**：报表与分析类抱怨集中出现，典型表述：I need something that interrupts me at the right moment, not another dashboard.
- **证据**：2 篇帖子（r/ADHD、r/SaaS）
- **用户原话**：

> "I need something that interrupts me at the right moment, not another dashboard." — r/ADHD · 帖子 726 赞 "Feature request: real analytics instead of vanity dashboards" — r/SaaS · 帖子 156 赞

5. Search Organization Improvement · 6.4/10 · P2

- **类别**：搜索与信息组织　**用户意图**：明确要功能　**情绪**：挫败
- **痛点**：搜索与信息组织类抱怨集中出现，典型表述：I wish there was granular sharing per folder.
- **证据**：2 篇帖子（r/startups、r/androidapps）
- **用户原话**：

> "I wish there was granular sharing per folder." — r/startups · 帖子 433 赞 "There are no filters by date and no way to save a search." — r/androidapps · 帖子 187 赞

6. Onboarding Support Improvement · 6.4/10 · P2

- **类别**：上手引导与客服　**用户意图**：求方案　**情绪**：挫败
- **痛点**：上手引导与客服类抱怨集中出现，典型表述：The manual workaround is faster than the onboarding.
- **证据**：2 篇帖子（r/freelance、r/Entrepreneur）
- **用户原话**：

> "The manual workaround is faster than the onboarding." — r/freelance · 帖子 341 赞 "Customer support is the biggest problem with every SaaS I buy" — r/Entrepreneur · 帖子 219 赞

7. Automation Ai Improvement · 4.9/10 · P2

- **类别**：自动化 / AI 能力　**用户意图**：愿意付费　**情绪**：挫败
- **痛点**：自动化 / AI 能力类抱怨集中出现，典型表述：I wish there was an AI that breaks the task down and sits with me while I do...
- **证据**：1 篇帖子（r/ADHD）
- **用户原话**：

> "I wish there was an AI that breaks the task down and sits with me while I do the first step." — r/ADHD · 帖子 726 赞

8. Collaboration Improvement · 4.8/10 · P2

- **类别**：协作与权限　**用户意图**：明确要功能　**情绪**：挫败
- **痛点**：协作与权限类抱怨集中出现，典型表述：I wish there was a flat rate for small teams under ten people.
- **证据**：1 篇帖子（r/smallbusiness）
- **用户原话**：

> "I wish there was a flat rate for small teams under ten people." — r/smallbusiness · 帖子 512 赞

9. Mobile Improvement · 4.7/10 · P2

- **类别**：移动端体验　**用户意图**：愿意付费　**情绪**：挫败
- **痛点**：移动端体验类抱怨集中出现，典型表述：The mobile app is a deal breaker, I cannot even edit a table on my phone
- **证据**：1 篇帖子（r/iosapps）

- **用户原话**：

  > "The mobile app is a deal breaker, I cannot even edit a table on my phone" — r/iosapps · 帖子 264 赞

10. Reliability Security Improvement · 4.7/10 · P2

- **类别**：可靠性与安全　**用户意图**：明确要功能　**情绪**：挫败
- **痛点**：可靠性与安全类抱怨集中出现，典型表述：I wish there was at least a status page and a security page with SSO details.
- **证据**：1 篇帖子（r/SaaS）
- **用户原话**：

  > "I wish there was at least a status page and a security page with SSO details." — r/SaaS · 帖子 208 赞

五、用户原话墙

Data Import Export Improvement

> "I wish there was a bulk CSV import that just understood our schema." — r/SaaS · 帖子 842 赞

Reporting Analytics Improvement

> "I need something that interrupts me at the right moment, not another dashboard." — r/ADHD · 帖子 726 赞

Automation Ai Improvement

> "I wish there was an AI that breaks the task down and sits with me while I do the first step." — r/ADHD · 帖子 726 赞

Pricing Billing Improvement

> "Per seat pricing is a deal breaker for small businesses like ours." — r/smallbusiness · 帖子 512 赞

Collaboration Improvement

> "I wish there was a flat rate for small teams under ten people." — r/smallbusiness · 帖子 512 赞

Integration Improvement

> "I need a real two way sync between my calendar and my task manager without paying for a Zapier plan on top of two subscriptions." — r/productivity · 帖子 455 赞

Search Organization Improvement

> "I wish there was granular sharing per folder." — r/startups · 帖子 433 赞

Pricing Billing Improvement

> "Built an alternative to a popular note app because the pricing got insane" — r/SideProject · 帖子 389 赞

Integration Improvement

> "Looking for a self hosted alternative to Notion with a real API" — r/selfhosted · 帖子 377 赞

Data Import Export Improvement

> "Invoicing tools are so annoying that I went back to Excel" — r/freelance · 帖子 341 赞

Onboarding Support Improvement

> "The manual workaround is faster than the onboarding." — r/freelance · 帖子 341 赞

Integration Improvement

> "Why is there no decent webhook debugger under 99 dollars a month" — r/webdev · 帖子 298 赞

六、赛道痛点分布

类别	条目数	平均强度	强度分布
第三方集成	1	8.1	▇▇▇▇▇▇▇▇▇▇▇▇
数据导入 / 导出	1	8.0	▇▇▇▇▇▇▇▇▇▇▇▇
定价与计费	1	6.6	▇▇▇▇▇▇▇▇▇▇
报表与分析	1	6.5	▇▇▇▇▇▇▇▇▇▇
搜索与信息组织	1	6.4	▇▇▇▇▇▇▇▇▇
上手引导与客服	1	6.4	▇▇▇▇▇▇▇▇▇
自动化 / AI 能力	1	4.9	▇▇▇▇▇▇▇
协作与权限	1	4.8	▇▇▇▇▇▇▇
移动端体验	1	4.7	▇▇▇▇▇▇▇
可靠性与安全	1	4.7	▇▇▇▇▇▇▇

七、方法与局限

- **数据来源**：Reddit 公开帖子与评论（PRAW 只读模式），已剔除置顶公告、NSFW 内容与低赞噪声评论。
- **抽样偏差**：Reddit 以英语用户与重度用户为主，不能代表整体市场；近 365 天热帖会放大争议性话题。
- **评论覆盖**：为控制请求量，未展开 "load more comments" 深层子线程（PRAW `replace_more(limit=0)`），长尾评论可能遗漏。
- **规则模式限制**：本次未启用大模型，按「痛点句式 + 关键词」归类，同一能力可能被拆到相邻类别（例如「按文件夹共享」落入搜索/组织类），功能名也是类别模板而非具体能力。请配置 `LLM_API_KEY` 后去掉 `--no-llm` 重跑，才能得到可用的语义聚类结果。
- **指标含义**：`demand_score` 用于横向排序，不代表付费人数或收入预测；立项前请补充访谈与竞品定价验证。
- **本次调用统计**：0 次模型请求，约 0 tokens，丢弃无法溯源的引用 0 条。

本报告由 reddit_backlog_agent 自动生成。请遵守 Reddit API 使用条款，仅用于公开内容的分析与研究，不要用于骚扰、画像或再分发用户内容。
